Audits by Oxypteros Accessibility Conformance Report

International Edition

(Based on VPAT® Version 2.5Rev)

Name of Product/Version:

Audits by Oxypteros portal

Report Date:

November 2026

Product Description:

Audits by Oxypteros is a web-based portal for the secure delivery and presentation of accessibility, quality assurance and usability audit reports. Authenticated clients can access their commissioned reports through a private dashboard, while a separate public preview area presents selected not commissioned case studies involving public entities.

Commissioned reports are treated as confidential client deliverables. They are not disclosed or shared with third parties, whether in their original or redacted form, without the client's explicit consent, except where disclosure is required for legal reasons. This restriction also applies to their use for promotional, advertising, portfolio, or client-acquisition purposes.

Each report documents identified issues by describing the nature of the finding, why it matters, who may be affected, the relevant standards or success criteria, and recommended remediation approaches. Where applicable, findings are accompanied by supporting evidence, including images, audio recordings, and video demonstrations.

The portal provides a consistent structure for presenting audit findings and supporting evidence, enabling clients to review, understand, and act on identified issues.

"Voluntary Product Accessibility Template" and "VPAT" are registered service marks of the Information Technology Industry Council (ITI)

Contact Information:

Notes:

This Accessibility Conformance Report (ACR) was prepared by Oxypteros following the completion of an accessibility evaluation conducted in November 2026.

No client data or identifiable findings from commissioned client reports are disclosed in this document. The evaluation results presented relate exclusively to the product and its evaluated functionality.

Evaluation Methods Used:

The evaluation employed a combination of manual, semi-automated, and automated testing techniques, following the **W3C Website Accessibility Conformance Evaluation Methodology (WCAG-EM) 2.0**.

The evaluation covered the product's defined scope and representative sample of pages, templates, and content variations, as documented in the evaluation methodology and sampling criteria.

Testing was conducted across the following operating systems and device platforms:

- Windows 11
- Fedora 44
- ChromeOS
- iOS
- Android

The browsers included in the evaluation were:

- Google Chrome
- Mozilla Firefox
- Apple Safari

Keyboard-only operation was evaluated on the supported platforms to assess operation of the product without requiring a pointing device.

The assistive technologies included in the evaluation were:

- NVDA (NonVisual Desktop Access)
- Orca
- VoiceOver
- TalkBack

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.2	Level A (Yes) Level AA (Yes) Level AAA (No)
Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018	(Yes)
EN 301 549 Accessibility requirements for ICT products and services - V3.2.1 (2021-03)	(Yes)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports**: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- **Not Applicable**: The criterion is not relevant to the product.
- **Not Evaluated**: The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.2 Report

Tables 1 and 2 also document conformance with:

- EN 301 549:
  - Clause 9 – Web
- Revised Section 508:
  - Chapter 5 - 501.1 Scope

Note: When reporting on conformance with the WCAG 2.2 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the **WCAG 2.2 Conformance Requirements**.

Table 1: Success Criteria, Level A

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A) Also applies to: EN 301 549 Criteria • 9.1.1.1 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Informative images are provided with text alternatives that communicate their information and purpose. Decorative images are implemented so that they can be ignored by assistive technologies. Images serving as functional controls are provided with accessible names that communicate their purpose. The evaluation also considered non-text content in issue pages, including images used as evidence.
1.2.1 Audio-only and Video-only (Prerecorded) (Level A) Also applies to: EN 301 549 Criteria • 9.1.2.1 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Prerecorded audio-only and video-only evidence provided on issue pages is accompanied by an equivalent text alternative.
1.2.2 Captions (Prerecorded) (Level A) Also applies to: EN 301 549 Criteria • 9.1.2.2 (Web) Revised Section 508 • 501 (Web)	Web: Partial Support	Web: Some of the video within the evaluated sample contains synchronized audio, consisting of screen-reader announcements or recorded website audio, without synchronized captions. Although a descriptive transcript is provided, it does not constitute synchronized captions. Therefore, this criterion is partially supported.

Criteria	Conformance Level	Remarks and Explanations
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A) Also applies to: EN 301 549 Criteria • 9.1.2.3 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Prerecorded audio-only and video-only evidence is accompanied by equivalent text alternatives. Where synchronized audio and video are provided as supporting evidence, descriptive transcripts communicate the relevant visual information and accompanying audio, including screen-reader announcements and recorded website audio.
1.3.1 Info and Relationships (Level A) Also applies to: EN 301 549 Criteria • 9.1.3.1 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Information, structure, and relationships throughout the evaluated pages are programmatically determinable or available in text. The evaluation included the shared page templates and representative report and issue pages, including pages containing supporting evidence and attachments.
1.3.2 Meaningful Sequence (Level A) Also applies to: EN 301 549 Criteria • 9.1.3.2 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: The reading sequence of content on the evaluated pages preserves the meaning and relationships of the information. Content is presented in a logical order when navigated using assistive technologies, including screen readers, and when accessed using a keyboard.

Criteria	Conformance Level	Remarks and Explanations
1.3.3 Sensory Characteristics (Level A) Also applies to: EN 301 549 Criteria • 9.1.3.3 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Instructions and information necessary to understand and operate the product do not rely solely on sensory characteristics such as shape, size, visual location, orientation, or sound.
1.4.1 Use of Color (Level A) Also applies to: EN 301 549 Criteria • 9.1.4.1 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Colour is not used as the sole visual means of conveying information, indicating actions, prompting responses, or distinguishing interface elements. Information conveyed through colour is also available through additional visual cues, such as text labels, icons and patterns where applicable.
1.4.2 Audio Control (Level A) Also applies to: EN 301 549 Criteria • 9.1.4.2 (Web) Revised Section 508 • 501 (Web)	Web: Not Applicable	Web: The evaluated product does not contain audio that plays automatically for more than three seconds.
2.1.1 Keyboard (Level A) Also applies to: EN 301 549 Criteria • 9.2.1.1 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: All functionality of the evaluated product is available through a keyboard without requiring specific timings for individual keystrokes. Keyboard accessibility was evaluated across the shared page templates and representative public and private report and issue pages. Testing included navigation, access to report content, interactive controls, and available supporting evidence.

Criteria	Conformance Level	Remarks and Explanations
2.1.2 No Keyboard Trap (Level A) Also applies to: EN 301 549 Criteria • 9.2.1.2 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Keyboard focus is not trapped within any component or area of the evaluated product. Users can navigate into and out of all keyboard-operable components using the keyboard.
2.1.4 Character Key Shortcuts (Level A 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.2.1.4 (Web) Revised Section 508 – Does not apply	Web: Not Applicable	Web: The evaluated product does not implement keyboard shortcuts that can be activated using a single character key.
2.2.1 Timing Adjustable (Level A) Also applies to: EN 301 549 Criteria • 9.2.2.1 (Web) Revised Section 508 • 501 (Web)	Web: Not Applicable	Web: The product does not impose time limits on user interactions or require users to complete tasks within a specified time.
2.2.2 Pause, Stop, Hide (Level A) Also applies to: EN 301 549 Criteria • 9.2.2.2 (Web) Revised Section 508 • 501 (Web)	Web: Not Applicable	Web: The evaluated product does not contain automatically started moving, blinking, or scrolling content lasting more than five seconds, or automatically updating information presented alongside other content.
2.3.1 Three Flashes or Below Threshold (Level A) Also applies to: EN 301 549 Criteria • 9.2.3.1 (Web) Revised Section 508 • 501 (Web))	Web: Not Applicable	Web: The evaluated product does not contain flashing content.

Criteria	Conformance Level	Remarks and Explanations
2.4.1 Bypass Blocks (Level A) Also applies to: EN 301 549 Criteria • 9.2.4.1 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: A mechanism is provided to bypass repeated blocks of content, allowing users to navigate directly to the main content of the page.
2.4.2 Page Titled (Level A) Also applies to: EN 301 549 Criteria • 9.2.4.2 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: All evaluated pages have descriptive and informative page titles that identify their topic or purpose. Page titles are unique where necessary to distinguish different sections, reports, and individual issue pages within the product.
2.4.3 Focus Order (Level A) Also applies to: EN 301 549 Criteria • 9.2.4.3 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: The focus order of interactive elements preserves the meaning and operability of the evaluated pages. When users navigate sequentially using a keyboard, focus moves through interactive elements in a logical order that is consistent with the structure and presentation of the content.
2.4.4 Link Purpose (In Context) (Level A) Also applies to: EN 301 549 Criteria • 9.2.4.4 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: The purpose of each link can be determined from its link text alone or from the link text together with its programmatically determined context. Link labels communicate the destination or function of the link sufficiently for users to understand its purpose.

Criteria	Conformance Level	Remarks and Explanations
2.5.1 Pointer Gestures (Level A 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.2.5.1 (Web) Revised Section 508 – Does not apply	Web: Supports	Web: Functionality that can be operated with a pointer can also be operated using a single-pointer alternative that does not require a path-based gesture.
2.5.2 Pointer Cancellation (Level A 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.2.5.2 (Web) Revised Section 508 – Does not apply	Web: Supports	Web: Functionality operated using a single pointer does not execute any part of an action on the pointer-down event. Actions are triggered on the pointer-up event, allowing users to abort activation by moving the pointer away before release.
2.5.3 Label in Name (Level A 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.2.5.3 (Web) Revised Section 508 – Does not apply	Web: Supports	Web: The accessible names of user-interface components that have visible text labels include the corresponding visible label text. Where additional context is provided in the accessible name, the visible label text appears at the beginning of the accessible name.
2.5.4 Motion Actuation (Level A 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.2.5.4 (Web) Revised Section 508 – Does not apply	Web: Not Applicable	Web: The evaluated product does not provide functionality that can be operated through device motion or user gestures, such as shaking or tilting the device. Therefore, this criterion is not applicable.
3.1.1 Language of Page (Level A) Also applies to: EN 301 549 Criteria • 9.3.1.1 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: The primary language of each evaluated page is programmatically identified using the language attribute and corresponds to the language of the page's content.

Criteria	Conformance Level	Remarks and Explanations
3.2.1 On Focus (Level A) Also applies to: EN 301 549 Criteria • 9.3.2.1 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Receiving focus on an interface component does not automatically cause a change of context. Moving keyboard focus between links, buttons, form controls, and other interactive elements does not trigger unexpected navigation, form submission, or changes in the displayed content.
3.2.2 On Input (Level A) Also applies to: EN 301 549 Criteria • 9.3.2.2 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Changing the settings of user-interface components does not automatically cause a change of context. Where applicable, instructions are provided to inform users of any expected context changes resulting from their input.
3.2.6 Consistent Help (Level A 2.2 only) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Web: Supports	Web: Help mechanisms, where provided, are presented in a consistent relative order across the evaluated pages.
3.3.1 Error Identification (Level A) Also applies to: EN 301 549 Criteria • 9.3.3.1 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: When input errors are detected, the affected item is identified, and the error is described to users in text. Error messages provide sufficient information to help users identify the field or input requiring correction.
3.3.2 Labels or Instructions (Level A) Also applies to: EN 301 549 Criteria • 9.3.3.2 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Labels or instructions are provided when user input is required.

Criteria	Conformance Level	Remarks and Explanations
3.3.7 Redundant Entry (Level A 2.2 only) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Web: Supports	Web: The evaluated product does not require users to re-enter information they have previously provided within the same process, unless re-entry is essential, required for security, or the previously entered information is no longer valid.
4.1.1 Parsing (Level A) Applies to: WCAG 2.0 and 2.1 – Always answer 'Supports' WCAG 2.2 (obsolete and removed) - Does not apply EN 301 549 Criteria • 9.4.1.1 (Web) Revised Section 508 • 501 (Web)	Supports	For WCAG 2.0, 2.1, EN 301 549, and Revised 508 Standards, the September 2023 errata update indicates this criterion is always supported. See the WCAG 2.0 Editorial Errata and the WCAG 2.1 Editorial Errata.
4.1.2 Name, Role, Value (Level A) Also applies to: EN 301 549 Criteria • 9.4.1.2 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: The name, role, state, and value of user-interface components can be programmatically determined by assistive technologies.

Table 2: Success Criteria, Level AA

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA) Also applies to: EN 301 549 Criteria • 9.1.2.4 (Web) Revised Section 508 • 501 (Web)	Web: Not Applicable	Web: The evaluated product does not provide live synchronized audio and video content.

Criteria	Conformance Level	Remarks and Explanations
1.2.5 Audio Description (Prerecorded) (Level AA) Also applies to: EN 301 549 Criteria • 9.1.2.5 (Web) Revised Section 508 • 501 (Web)	Web: Partial Supports	Web: The evaluated sample contains prerecorded videos with synchronized audio used as supporting evidence of accessibility findings. Although descriptive transcripts are provided, some recordings contain relevant visual information that is not communicated through the accompanying audio. No separate audio-description track is provided for these recordings. Therefore, this criterion is partially supported.
1.3.4 Orientation (Level AA 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.1.3.4 (Web) Revised Section 508 – Does not apply	Web: Supports	Web: The evaluated product does not restrict content to a specific orientation. Content and functionality are available in both portrait and landscape orientations.
1.3.5 Identify Input Purpose (Level AA 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.1.3.5 (Web) Revised Section 508 – Does not apply	Web: Not Applicable	Web: The evaluated product's forms contain only username and password fields for authentication. No input fields collect personal information with an applicable input purpose defined in the WCAG Input Purposes for User Interface Components list.

Criteria	Conformance Level	Remarks and Explanations
1.4.3 Contrast (Minimum) (Level AA) Also applies to: EN 301 549 Criteria • 9.1.4.3 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Text presented within the evaluated product meets the minimum contrast requirements. Images of text are not used for regular interface content. Screenshots included as supporting evidence in audit reports may contain text with insufficient contrast where the contrast issue itself is the subject of the reported finding.
1.4.4 Resize text (Level AA) Also applies to: EN 301 549 Criteria • 9.1.4.4 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Text can be resized up to 200% using browser zoom or other supported text-resizing mechanisms without loss of content or functionality.
1.4.5 Images of Text (Level AA) Also applies to: EN 301 549 Criteria • 9.1.4.5 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Textual information in the product's interface and report content is presented as text rather than images of text. Screenshots included as supporting evidence in audit reports may contain embedded text where necessary to demonstrate an identified issue in the audited third-party content.
1.4.10 Reflow (Level AA 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.1.4.10 (Web) Revised Section 508 – Does not apply	Web: Supports	Web: Content reflows without loss of information or functionality and without requiring scrolling in two dimensions at a viewport width equivalent to 320 CSS pixels. The evaluation also verified that content remains usable at a viewport height equivalent to 256 CSS pixels.

Criteria	Conformance Level	Remarks and Explanations
1.4.11 Non-text Contrast (Level AA 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.1.4.11 (Web) Revised Section 508 – Does not apply	Web: Supports	Web: Visual information necessary to identify user-interface components and their states, as well as graphical objects required to understand content, has a contrast ratio of at least 3:1 against adjacent colours. This includes relevant component boundaries, control indicators, and visual state indicators, where applicable.
1.4.12 Text Spacing (Level AA 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.1.4.12 (Web) Revised Section 508 – Does not apply	Web: Supports	Web: Customizing character, word, line, and paragraph spacing does not degrade content or usability.
1.4.13 Content on Hover or Focus (Level AA 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.1.4.13 (Web) Revised Section 508 – Does not apply	Web: Supports	Web: Additional content that appears when a user-interface component receives pointer hover or keyboard focus can be dismissed without moving the pointer or keyboard focus. Where additional content is triggered by pointer hover, users can move the pointer over that content without it disappearing. The additional content remains visible until the triggering hover or focus is removed, the user dismisses it, or the information it presents becomes invalid.

Criteria	Conformance Level	Remarks and Explanations
2.4.5 Multiple Ways (Level AA) Also applies to: EN 301 549 Criteria • 9.2.4.5 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Users can locate pages within the product through multiple navigation mechanisms. Available mechanisms include the primary navigation and, where applicable, report listings or other navigational links. These mechanisms provide access to pages within the authenticated user's authorized scope. Pages that are steps in a process or are only accessible through a specific process are excluded where the WCAG exception applies.
2.4.6 Headings and Labels (Level AA) Also applies to: EN 301 549 Criteria • 9.2.4.6 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Headings describe the topic or purpose of the content they introduce. Labels for interactive components and form controls describe their purpose and the information users are expected to provide. Headings and labels are descriptive and appropriate to the content and functionality they identify.
2.4.7 Focus Visible (Level AA) Also applies to: EN 301 549 Criteria • 9.2.4.7 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: The evaluated product provides a visible indication of which user-interface component currently has keyboard focus.

Criteria	Conformance Level	Remarks and Explanations
2.4.11 Focus Not Obscured (Minimum) (Level AA 2.2 only) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Web: Supports	Web: When a user-interface component receives keyboard focus, the component is not entirely hidden by other content created by the author. Focused components remain at least partially visible, including when overlays, sticky headers, sticky footers, or other content are present.
2.5.7 Dragging Movements (Level AA 2.2 only) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Web: Not Applicable	Web: The evaluated product does not provide functionality that requires dragging movements to operate.
2.5.8 Target Size (Minimum) (Level AA 2.2 only) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Web: Supports	Web: Interactive targets have a minimum size of 24 × 24 CSS pixels, unless an applicable exception under WCAG 2.5.8 applies. Exceptions include targets whose size is determined by the user agent, inline targets, equivalent controls that meet the size requirement, essential presentations, and targets that satisfy the spacing exception.
3.1.2 Language of Parts (Level AA) Also applies to: EN 301 549 Criteria • 9.3.1.2 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Where report content, excerpts, examples, or supporting text include passages or phrases in a language different from the default language of the page, the language of those passages or phrases is programmatically identified using appropriate language attributes, except where an applicable WCAG exception applies.

Criteria	Conformance Level	Remarks and Explanations
3.2.3 Consistent Navigation (Level AA) Also applies to: EN 301 549 Criteria • 9.3.2.3 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: Navigational mechanisms that are repeated across multiple pages appear in the same relative order each time they are encountered.
3.2.4 Consistent Identification (Level AA) Also applies to: EN 301 549 Criteria • 9.3.2.4 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: User-interface components that have the same functionality are identified consistently throughout the evaluated product. This includes links, buttons, icons, and other interactive components that perform the same function across multiple pages.
3.3.3 Error Suggestion (Level AA) Also applies to: EN 301 549 Criteria • 9.3.3.3 (Web) Revised Section 508 • 501 (Web)	Web: Supports	Web: When input errors are automatically detected and suggestions for correcting them are known, those suggestions are provided to users in text, unless providing them would jeopardize the security or purpose of the content. Suggestions are communicated in a timely and accessible manner to help users correct input errors.
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA) Also applies to: EN 301 549 Criteria • 9.3.3.4 (Web) Revised Section 508 • 501 (Web)	Web: Not Applicable	Web: The evaluated product does not provide functionality that results in legal commitments, financial transactions, or modifications to user-controllable data stored in data systems.

Criteria	Conformance Level	Remarks and Explanations
3.3.8 Accessible Authentication (Minimum) (Level AA 2.2 only) EN 301 549 Criteria – Does not apply Revised Section 508 – Does not apply	Web: Supports	Web: Authentication does not require users to complete cognitive function tests without an alternative mechanism or assistance. The login form supports password-manager functionality, including browser autofill and password copy-and-paste, allowing users to authenticate without relying solely on memorization.
4.1.3 Status Messages (Level AA 2.1 and 2.2) Also applies to: EN 301 549 Criteria • 9.4.1.3 (Web) Revised Section 508 – Does not apply	Web: Supports	Web: Status messages, including success notifications, error messages, loading updates, and other changes in status, are programmatically determinable through appropriate semantic roles or properties. Assistive technologies can identify and announce these messages without requiring keyboard focus to move to them.

Table 3: Success Criteria, Level AAA

Notes: The evaluated product was not assessed against WCAG 2.2 Level AAA success criteria. Therefore, no conformance claims are made at this level.

Revised Section 508 Report

Notes: The evaluated product is assessed under Revised Section 508 §501.1 (Web). The applicable accessibility requirements are addressed through the WCAG 2.0 Level A and Level AA Success Criteria referenced by Section 508 E205.4, as reported in the corresponding WCAG tables of this document.

Chapter 3: Functional Performance Criteria (FPC)

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Supports	All functionality of the evaluated product is operable without vision through keyboard interaction and compatible screen-reader technology.
302.2 With Limited Vision	Supports	All functionality remains usable when users enlarge content and adjust the display to accommodate limited vision.
302.3 Without Perception of Color	Supports	Information and functionality do not rely solely on colour perception. Information conveyed through colour is also communicated through text, icons, patterns, or other visual indicators, where applicable.
302.4 Without Hearing	Supports	All functionality and essential information are available without requiring users to hear audio. Audio information provided as part of report content or supporting evidence is accompanied by an equivalent text alternative where applicable.

Criteria	Conformance Level	Remarks and Explanations
302.5 With Limited Hearing	Supports	All functionality remains usable by individuals with limited hearing. Where audio content conveys information, equivalent text alternatives are provided.
302.6 Without Speech	Supports	All functionalities are available without requiring users to produce speech. Users can navigate and operate the product through non-speech input methods, including keyboard interaction.
302.7 With Limited Manipulation	Supports	All functionalities can be operated without requiring fine motor control or simultaneous manual operations. Interactive components can be accessed and operated using a keyboard, without requiring precise pointer movements or complex gestures.
302.8 With Limited Reach and Strength	Supports	All functionalities can be operated without requiring significant physical strength or extensive reach. The product does not require users to apply physical force or perform interactions that depend on extensive physical movement.

Criteria	Conformance Level	Remarks and Explanations
302.9 With Limited Language, Cognitive, and Learning Abilities	Partial Support	The product provides a structured interface for accessing and reviewing accessibility reports. Report findings generally use clear and concise language; however, some descriptions necessarily include technical terminology and specialized vocabulary relating to accessibility standards, web technologies, and remediation techniques. This terminology may present comprehension challenges for individuals with limited language, cognitive, or learning abilities. Although technical terminology is necessary for accurately documenting accessibility issues, additional explanations or simplified descriptions may improve comprehension for these users.

Chapter 4: Hardware

Notes: The evaluated product is a web-based software application and does not include hardware. Therefore, the requirements of Chapter 4 (Hardware) do not apply.

Chapter 5: Software

Notes: The evaluated product is a web portal and does not constitute platform software, a software tool provided by a platform developer, or an application that is itself a platform. Therefore, the requirements of Chapter 5 (Software) do not apply.

Chapter 6: Support Documentation and Services

Notes: The evaluated product does not provide ICT support documentation or support services within the scope of Chapter 6. Therefore, the requirements of this chapter do not apply.

EN 301 549 Report

Clause 4: Functional Performance Statements (FPS)

Notes: The functional performance statements in EN 301 549 Clause 4 are informative and describe the accessibility needs that the technical requirements in Clauses 5 to 13 are intended to address. They do not constitute independent testable conformance requirements. The evaluated product's accessibility in relation to these functional performance statements was considered through the assessment of applicable technical requirements, particularly those in Clause 9 (Web).

Clause 5: Generic Requirements

Notes: The evaluated product is a web-based software application and does not include closed functionality, biometric identification, physical operable parts, or physical locking or toggle controls. Requirements concerning these features are therefore not applicable.

Clause 6: ICT with Two-Way Voice Communication

Notes: The evaluated product does not provide functionality for two-way voice communication between users. Therefore, the requirements of Clause 6 do not apply.

Clause 7: ICT with Video Capabilities

Criteria	Conformance Level	Remarks and Explanations
7.1 Caption processing technology	Heading cell – no response required	Heading cell – no response required
7.1.1 Captioning playback	Not Applicable	No captions are currently provided in the synchronized video. The test requires captions to be present before testing the player's caption-display capability.
7.1.2 Captioning synchronization	Not Applicable	The evaluated product does not display captions for video content.
7.1.3 Preservation of captioning	Not Applicable	The evaluated product does not transmit, convert, or record video with synchronized audio or associated caption data. Therefore, the requirements for preservation of captioning do not apply.
7.1.4 Captions characteristics	Not Applicable	The evaluated product does not display captions for its video evidence. Therefore, requirements concerning the presentation and customization of caption characteristics do not apply.
7.1.5 Spoken subtitles	Not Applicable	No captions are available for spoken output.

Criteria	Conformance Level	Remarks and Explanations
7.2.1 Audio description playback	Does Not Support	The portal displays video with synchronized audio, but its player cannot select and play audio-description tracks or alternative audio tracks.
7.2.2 Audio description synchronization	Not Applicable	The evaluated product does not provide an audio-description playback mechanism. Therefore, audio-description synchronization requirements do not apply.
7.2.3 Preservation of audio description	Not Applicable	The evaluated product does not transmit, convert, or record video with synchronized audio or associated audio-description data. Therefore, the requirements for preservation of audio description do not apply.

Criteria	Conformance Level	Remarks and Explanations
7.3 User controls for captions and audio description	Not Applicable	The evaluated product is a report-viewing portal and does not primarily display video materials with associated audio content. Its video evidence consists of silent screen recordings, while audio evidence is provided separately as standalone recordings with accompanying transcripts. Therefore, dedicated user controls for captions and audio description are not applicable.

Clause 8: Hardware

Notes: The ICT covered by this report is a web-based software application and does not include hardware functionality. Therefore, the requirements of Clause 8 do not apply.

Clause 9: Web (see WCAG 2.2 section)

Clause 10: Non-Web Documents

Notes: The evaluated product presents its content through web pages. Therefore, the requirements of Clause 10 do not apply.

Clause 11: Software

Notes: The evaluated product is a web application and does not constitute non-web software. Therefore, the requirements of Clause 11 do not apply.

Clause 12: Documentation and Support Services

Criteria	Conformance Level	Remarks and Explanations
12.1 Product documentation	Heading cell – no response required	Heading cell – no response required
12.1.1 Accessibility and compatibility features	Not Applicable	The evaluated product is not supplied with separate product documentation. Therefore, the requirements concerning accessibility and compatibility features in product documentation do not apply.
12.1.2 Accessible documentation	See WCAG 2.2 section	See information in WCAG 2.2 section
12.2 Support Services	Heading cell – no response required	Heading cell – no response required
12.2.2 Information on accessibility and compatibility features	Supports	The product's email-based support service and respective web page provides information about the accessibility and compatibility features of the evaluated product, including information relevant to users of assistive technologies. This enables users with disabilities to obtain information about the product's accessibility before or during use.

Criteria	Conformance Level	Remarks and Explanations
12.2.3 Effective communication	Supports	The product's support service is available through email, allowing users to request assistance through written communication without requiring telephone or voice-based interaction. Users can communicate their support needs in writing, including requests for reasonable communication accommodations, enabling the support service to respond in a manner appropriate to their needs.
12.2.4 Accessible documentation	See WCAG 2.2 section	See information in WCAG 2.2 section

Clause 13: ICT Providing Relay or Emergency Service Access

Notes: The evaluated product does not provide functionality supporting two-way communication, relay services, or access to emergency services. Therefore, the requirements of Clause 13 do not apply.

Legal Disclaimer

This Accessibility Conformance Report (ACR) was prepared by Audits by Oxypteros.

All findings represent objective technical observations of the publicly accessible production environment as observed during the first week of November 2026. They are accurate to the best of our knowledge at the time of evaluation.

This document is provided **AS IS**, for informational purposes only. It does not constitute legal advice, a legal opinion, or a guarantee of compliance with applicable accessibility laws or regulations.

All trademarks, service marks, logos, and entity names referenced in this document remain the property of their respective owners. They are used solely for identification, reference, and commentary purposes. No ownership or affiliation is claimed.

Web accessibility is a dynamic state. Subsequent updates, code deployments, content changes, or redesigns by the digital property owner may affect the accessibility of the evaluated environment and render some or all findings obsolete or inaccurate.

Document Accessibility Assurance

This document was designed and evaluated against the PDF/UA-1 (ISO 14289-1) standard and WCAG 2.2 Level AA accessibility requirements.

Automated accessibility checks were performed using the PDF Accessibility Checker (PAC). The results are available in the accompanying PAC UA/PAC WCAG Report. Automated validation was supplemented by manual accessibility checks.
